Is today's weather good for wheat sowing in Lahore?

2026-07-22 08:18

RAG ASSISTANT

WEB

DIRECT ANSWER: Today's weather is not ideal for wheat sowing in Lahore due to moderate or heavy rain with thunder.<sup>[6][5]</sup> EXPLANATION: According to Weatherapi.com, the current weather in Lahore is moderate or heavy rain with thunder, which may not be suitable for wheat sowing.<sup>[1][6]</sup> World-weather.info forecasts a high temperature of 28.8 degrees Celsius and 91% humidity, which may also not be ideal for wheat cultivation.<sup>[3][5]</sup> Youtube.com suggests that balanced cool weather is ideal for wheat cultivation in Pakistan, but extreme cold should be avoided.<sup>[3][5]</sup> Instagram.com predicts above-average rainfall and potential hailstorms, which pose a significant risk to the wheat crop.<sup>[4][3]</sup> Facebook.com mentions that the heat before the end of a wet summer is a blessing for farmers as they prep up for sowing, but the current weather is hot and rainy.<sup>[5][6]</sup> Tiktok.com forecasts isolated rain with strong winds in North-East Punjab, including Lahore, which may not be suitable for wheat sowing.<sup>[6][2]</sup>
